Description The proclamation of the Republic of Austria on 12 November 1918 at 15 clock from the parliamentary ramp from several important steps of the state preceded. The Emperor Charles Volklermanifesto of October 16, 1918, which proclaimed the conversion of the monarchy in a federal state, came too late to save the Habsburg monarchy. It is the disintegration and the formation of national councils of the individual nationalities, the South Slavs, Poles and Czechs.
